

# Zymet®

Tablet

## Description

Zymet is a preparation of mammalian pancreas containing enzyme protease, lipase and amylase activity. Each gram of pancreatin contains 1400 FIP units of protease activity, 20000 FIP units of lipase activity and 24000 FIP units of amylase activity. It is used to compensate for reduced intestinal enzyme activity in pancreatic deficiency states.

## Indications

Children :In children with reduced or absence of pancreatic exocrine secretion, and Cystic fibrosis.

Adults : In the conditions with deficient pancreatic exocrine function such as

- ◆ Following pancreatectomy
- ◆ Following total gastrectomy
- ◆ Chronic pancreatitis.

## Dosage and Administration

1-3 tablets daily with meal or as per direction of the physician.

## Precautions

Zymet should be used with caution in patients known to be allergic to animal protein.

## Side Effects

Zymet may cause buccal and perianal soreness, particularly in infants. Hypersensitivity reactions have been reported; these may be sneezing, lacrimation or skin rashes.

## Commercial Pack

Zymet® Tablet : Box containing 100 tablets in 10 x 10's blister strips, each sugar and enteric coated tablet contains Pancreatin BP 325 mg.
